DETAILED ACTION

Claim Objections

Claim 14 is objected to because of the following informalities:

It is suggested that in:

Claim 14, line 5, delete "vehicles" and insert --vehicle portions--.

Claim 14; insert a period at the end of this claim.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 22 and 23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 22 recites the limitation "the one vehicle portion" in lines 1-4. There is insufficient antecedent basis for this limitation in the claim.

Claim(s) 23 depends from rejected claim(s) 22 and includes all of the limitations of claim(s) 22 thereby rendering this dependent claim(s) indefinite.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 13 and 15 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent No. 4,698,044 to Kennedy et al.

Kennedy et al. discloses an articulated toy vehicle comprising: a first vehicle portion (10) having a first hitch (see figs. 2-4) connected thereto; a second vehicle portion (11) having a second hitch (see figs. 2-4) connected thereto; the first hitch comprising a base member (33) and a first connector member (33A, 33B) extending from the base member (see fig. 4), and a housing (24) connected to the first vehicle portion, the housing having a socket (34) for receiving the base member (see figs. 3, 4) and an opening through which the first connector member extends for coupling with the second hitch (see figs. 3, 4); and wherein the second hitch comprises a second connector member with a receptacle into which the first connector member is received (see figs. 2-4).

Claims 13 and 15 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent No. 2,595,936 to Goode.

Goode discloses an articulated toy vehicle comprising: a first vehicle portion (10) having a first hitch (see fig.1) connected thereto; a second vehicle portion (12) having a

second hitch (see fig.1) connected thereto; the first hitch comprising a base member (40) and a first connector member (34) extending from the base member (see fig.1), and a housing (32) connected to the first vehicle portion, the housing having a socket for receiving the base member (see figs.1, 2, 5) and an opening through which the first connector member extends for coupling with the second hitch (see figs.1, 2, 5); and wherein the second hitch comprises a second connector member with a receptacle into which the first connector member is received (see figs.1, 2, 5).

Response to Arguments

In response to Applicant's arguments concerning the objection made to claim 9. The amendments made to claim 9 have been considered and are deemed sufficient to overcome the objection to claim 9.

In response to Applicant's arguments concerning the rejections made to claims 1, 2, and 12. The amendments and Applicant's arguments with respect to claims 1, 2, and 12 have been considered and are deemed sufficient to overcome the rejections made to claims 1, 2, and 12 based on the second paragraph of 35 U.S.C. 112.

In response to Applicant's arguments concerning the election/restriction requirement made to claims 1-12 and 13-24. Examiner has fully considered the arguments concerning the election/restriction requirement made to claims 1-12 and 13-24 and has found them to be persuasive. Therefore, Examiner has withdrawn the

Art Unit: 3712

election/restriction requirements made to claims 1-12 and 13-24, and subsequently replaced non-elected claims 13-24 with elected claims 1-12, hereafter to be prosecuted concurrently. However, upon further consideration, a new ground(s) of rejection is made to claims 13 and 15, in view of U.S. Patents to Kennedy et al. and Goode as stated hereinabove.

Allowable Subject Matter

Claims 1-12, 16-21, and 24 are allowed.

Claims 22 and 23 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
